Paper and Documentation Storage

Pile Smart Project Sorter

I like this tool as an addendum to the To DO list. It is a great product for managing paper work associated with outstanding tasks. Each section is designated to a different project or action which corresponds with your To Do list. As the name implies, it can also be used to sort all the paperwork associated with a project.

Pile Smart

Poly Project Jackets

I love these simple jackets for travel. They are durable and transparent which makes them perfect for our itinerary, boarding pass, maps… I like them for active projects as well.
They are sealed on 3 sides so your "stuff" doesn't fall out. And they're cheap, about $1 a piece.

These are made by Smead Poly Translucent Project File Jacket,

Files Storage Bin

I like this product for storing files, sales aides and collateral materials when the need to be portable. It is a great product for storing info in your car. I like that this one has a handel making it easy to transport. There are many manufacturers of this product. I like **Innovative**. They are hardy and cheap and can be found at all office supply stores.
